Newsletter 16th April 2021

Welcome back to this new term.

The term has got off to a brilliant start with a 98% attendance. Thank you for giving the children the best possible start to the term.

Parents/carers have been in contact with me this last week and I feel privileged that you feel that you can talk to me about what is going on in our school for your children. As our communication gets better we will be able to serve and support your children to achieve their full potential.

You will know that we have been testing your children this week and I am very proud of how the children have coped with this. Please be assured that we have not lost sight about their well-being but this testing will help us to target support and identify where extra tuition may be needed in or out of school hours.

If you have any concerns or worries do not hesitate to contact any of the school team, we are all here to help.

Neil Campbell
Headteacher

Focus on: SEND

Before the Easter holidays lots of work had taken place to ensure that SEND children have the appropriate interventions that they need to meet their needs. The staff were very busy getting everything in place for the start of the term and are excited to see how the children will progress this term. Interventions are now up and running and we will be in touch to update you on their progress over the course of this term.

Office update:
